

Remote Work Policy

1. Eligibility

All full-time employees who have completed their 90-day onboarding period are eligible to work remotely. Contractors and interns are not covered by this policy and should refer to their individual agreements.

2. Remote Work Days

Employees may work remotely up to three days per week. The remaining two days must be spent at an assigned company office. Managers may approve a fully remote arrangement on a case-by-case basis for roles that do not require in-person collaboration.

3. Core Hours

Regardless of work location, all employees are expected to be online and reachable between 11:00 AM and 4:00 PM in their local time zone. This overlap window exists to support cross-team meetings and pairing sessions.

4. Home Office Equipment Stipend

Employees working remotely at least one day per week may claim a one-time home office equipment stipend of up to \$500 for desks, chairs, monitors, or keyboards. This stipend is separate from standard IT-issued equipment such as laptops. To claim it, submit a reimbursement request through the expense system within 60 days of starting a remote arrangement.

5. International Remote Work

Working remotely from a country other than your employment country requires prior written approval from both your manager and People Operations, due to tax and legal complications. Unapproved international remote work may affect payroll and benefits eligibility.
